ACKNOWLEDGEMENT

PSIA "Health and Social Care Centre - Sloka" Centre "Ķemeri" (hereinafter referred to as "Centre "Ķemeri") expresses its gratitude for the opportunity to participate in the activities organized by you within the project "Power of Creativity: strengthening the supporting role the adult educators working with disabled Nr. 2021-1-LT01-KA220-ADU-00003512". Both the staff of our organisation and our invited twinning partners had a great opportunity to learn new methodologies, the practical skills of which help to improve the daily work with people with mental disabilities. The staff participated in innovation activities on the spot, gaining experience and learning about new materials, approaches and tools. The sessions were led by professionals who were able to engage the interest of people with mental disabilities, seniors receiving long-term social care and seniors receiving alternative support by attending a day care centre.

Providing meaningful daily leisure activities with adults with intellectual disabilities requires specific knowledge and skills, knowledge of which allows staff to teach new skills more freely and easily. The training provided by the Ideja Centre for Innovation Education was a great opportunity to learn about modern technologies that make it easier and easier for both staff and clients to integrate into the digitalisation process. The knowledge gained is used in the day-to-day work of the day care centre for people with mental disabilities.

Ķemeri Centre is sincerely interested in further dissemination and cooperation! On 30 October 2023, the aim of the project "Power of Creativity: strengthening the supporting role of adult educators working with disabled No. 2021-1-LT01-KA220-ADU-00003512" was achieved as a result of cooperation.

PSIA "Health and Social Care Centre - Sloka"
